Press enter to boot, or give linux kernel boot options first if needed.
Some that I have to use once in a while:
boot nousb          - to turn off USB if not used and it causes problems
boot irqpoll       - if some drivers hang with irq problem messages
boot vga=ask       - if you have problems with the videomode
boot nodrivers     - skip automatic disk driver loading

boot: _
